

MARK SCHEME for the May/June 2007 question paper

7094 BANGLADESH STUDIES

7094/02

Paper 2 (Environment and Development of Bangladesh),
maximum raw mark 75

This mark scheme is published as an aid to teachers and candidates, to indicate the requirements of the examination. It shows the basis on which Examiners were instructed to award marks. It does not indicate the details of the discussions that took place at an Examiners' meeting before marking began.

All Examiners are instructed that alternative correct answers and unexpected approaches in candidates' scripts must be given marks that fairly reflect the relevant knowledge and skills demonstrated.

Mark schemes must be read in conjunction with the question papers and the report on the examination.

- CIE will not enter into discussions or correspondence in connection with these mark schemes.

CIE is publishing the mark schemes for the May/June 2007 question papers for most IGCSE, GCE Advanced Level and Advanced Subsidiary Level syllabuses and some Ordinary Level syllabuses.

Page 2	Mark Scheme	Syllabus	Paper
	GCE O LEVEL – May/June 2007	7094	02

- 1 (a) (i) high sea temperatures
over 27°C
low pressure
converging air currents [2]
- (ii) warm, moist air rises rapidly/evaporation from oceans cools
condenses/creation of latent heat
cold air drawn inwards/in spiralling motion
torrential/heavy rain
cold air in centre sinks [5]
- (iii) calm
no rain
clear skies [3]
- (b) (i) rapid rise in sea level
strong winds push sea water onto coast
waves (several metres) high [3]
- (ii) loss of life
injury
houses destroyed/homeless
crops destroyed
livestock killed
poverty
famine
loss of jobs
lack of clean water/contaminated water
disease – cholera, etc.
communications disrupted – affect rescue
difficult for aid to be distributed
fishing boats destroyed [6]
- (c) embankments – strengthened
new ones
cyclone shelters – on stilts
mangrove trees planted – absorb power of waves
stabilise embankments
education/awareness – particularly women
evacuation – more boats, carts, etc.
improved radio links

Marks for opinions on how effective – cost, strength, durability, effect on lives, farming, etc.[6]

[Total: 25]

Page 3	Mark Scheme	Syllabus	Paper
	GCE O LEVEL – May/June 2007	7094	02

- 2 (a) (i) 39% – 40%
high birth rate
early marriage
religious reasons
insufficient family planning/clinics
education/awareness
help in home/on farm, etc.
help in old age – no pensions [4]
- (ii) 8%
high death rate
poverty
lack of/poor access to medical facilities
poor nutrition/malnutrition
poor food supplies (e.g. natural disasters, etc.)
poor sanitation
poor hygiene [3]
- (b) high young dependant population
high natural increase in population
more mouths to feed
economic strain
more schools needed
more medical care needed
poverty – high dependency ratio [4]
- (c) (i) 1970 – 21
2002 – 21 [2]
- (ii) decrease in birth rate by 20/1000
decrease in death rate by 20/1000
decrease in infant mortality by 89/1000
